They know, they just know where to grow, how to dupe you, and how to camouflage themselves among the perfectly respectable plants, *they just know*, and therefore, I've concluded weeds *must* have brains."

Dianne Benson

INTRODUCTION

The Montana Noxious Weed Trust Fund grant program was established by the 1985 Legislature to provide funding for development and implementation of weed management programs in Montana. This program also provides funding for research and development of innovative weed management techniques, including biological control, and supports educational and other research projects that provide a benefit to all Montanans.

Noxious weeds pose a major threat to Montana's economy and environment. During the past century, weeds have infested over 8.2 million acres, or about 9% of the state, degrading the productivity and biological diversity of ecosystems. This grant program is designed to assist counties, local communities, researchers, and educators in their efforts to solve a variety of weed problems in Montana.

MONTANA NOXIOUS WEED TRUST FUND FUNDING SOURCES

- Original funding for the Montana Noxious Weed Trust Fund grants program included a $1,000,000 grant from the Montana Resource Indemnity Trust Fund [RIT]. Half of the RIT funds started the permanent Noxious Weed Trust Fund and half funded grants for the first two years of the program.
- The original enabling legislation for the Montana Noxious Weed Trust Fund grants program also included a 1% herbicide surcharge, with half of the revenue from the surcharge deposited in the permanent Noxious Weed Trust Fund and half funding weed grants across the state. The herbicide surcharge ended on July 31, 1992 when the permanent Noxious Weed Trust Fund reached its original goal of $2.5 million.
- The 1987 Legislature increased funding for the grants program by enacting a $0.50 fee on each vehicle registered in the state of Montana.
- The 1989 Legislature increased the weed vehicle fee to $1.50 for each registered vehicle. The weed vehicle fee income was supplemented with a fee on all off-highway vehicles and a portion of the gas tax from snowmobiles.
- The 1999 Legislature added an additional $2.25 million to the Trust Fund in the 2000/ 2001 biennium from non-restricted highway funds from the Montana Department of Transportation.
- The 2005 Legislature amended the Noxious Weed Trust Fund Act Section 80-7-811. It amends Article IX, section 6, of the Montana constitution and establishes a noxious weed management trust fund of $10 million that protects it from being used for other purposes. It will take a ¾ vote of both houses to use the principle of the trust fund for other purposes.
- The 2005 Legislature amended the 15-1-122 Fund Transfers. This changed the fee structure from a $1.50 per vehicle to a percentage of the total motor vehicle revenue for all vehicles registered. The percent is calculated at 1.53% for FY-06 and 1.50% for succeeding fiscal years.

LAWS & REGULATIONS

The Noxious Weed Trust Fund program operates under state statute, 80-7-801 through 821, MCA and administrative rules, 4.5.101 through 4.5.112, ARM.

NOXIOUS WEED MANAGEMENT ADVISORY COUNCIL

The Noxious Weed Management Advisory Council is appointed by the Director of the Montana Department of Agriculture and approved by the Governor. Council members represent: Director, Montana Department of Agriculture [Chair]; Livestock Production; Sportsman/Wildlife Group; Montana Weed Control Association; Agricultural Crop Production; Consumer Group; At-Large Member; Biological Research and Control; Herbicide Dealer or Applicator; Eastern County Representative; Western County Representative. The Council is appointed every two years and Council members are limited to three two-year terms.

The Council is assisted by ex-officio members representing various state and federal agencies, and other interested parties who provide technical input during the grant hearings process. They are non-voting members. The parties represented are: Montana State University Agriculture Experiment Stations; Montana State University Cooperative Extension Service; Montana Department of Fish, Wildlife and Parks; Montana Department of Transportation; Montana Department of Natural Resources and Conservation; Agricultural Chemical Industry; Wildlife Interests; Agricultural Stabilization and Conservation Service; US Bureau of Indian Affairs; US Bureau of Land Management; US Bureau of Reclamation; US Department of Energy; US Forest Service; US Natural Resources and Conservation Service; US National Park Service; and US Department of Agriculture.

FOR MORE INFORMATION

Additional copies of this report are available from the Montana Department of Agriculture, Agricultural Sciences Division, Noxious Weed Section, PO Box 200201, Helena, Montana, 59620-0201 or on the Department's website at www.agr.mt.gov
